WITH THE CONTRIBUTION OF

SPECIAL ISSUE PROCEEDINGS PAPERS

Papers will be published in two special issue IOP refereed journals:

- Invited oral and selected poster contributor papers will be published in Plasma Phys. Contr. Fusion (PPCF)
- Poster contributor papers will usually be published in the Journal of Physics Conference Series (JPCS)

Papers published in PPCF will follow the usual refereeing process of that journal, published as a cluster of papers related to the Varenna-Lausanne Theory of Fusion Plasmas 2022 Conference. Follow the guidelines and the LaTeX templates of PPCF. For invited speakers the submission deadline to PPCF is the end of September 2022. For poster contributors YOU NEED to send a justification for your intention of submitting to PPCF instead of JPCS, and a pdf of the manuscript, by **September 2nd, 2022**; a decision on the submission destination will be made by the start of the conference. Poster contributors should send the justification and pdf manuscript to:

Varenna-Lausanne@epfl.ch

Papers published in JPCS will be refereed mainly by the scientific committee and participants of the conference, supervised by Editors P. Helander and J. P. Graves. The JPCS papers will have a header stating explicitly that the papers have been refereed. Naturally, the refereeing process will be lighter (typically one referee) than the PPCF publication. Follow the guidelines and the LaTeX templates. Note that YOU NEED TO PROVIDE THE PDF PAPER BY FRIDAY **September 2th, 2022**, so that we can organize the refereeing process in due time. Send to:

Varenna-Lausanne@epfl.ch
